

# Efemérides de Abril

Día Mundial de la concientización sobre el  
Autismo (2 de Abril)

An illustration of a male doctor and a female nurse. The male doctor, on the left, is wearing a white lab coat over a blue scrub top, has a stethoscope around his neck, and is holding a green pen. He has his right arm raised in a celebratory gesture. The female nurse, on the right, is wearing a light blue scrub top and holding a clipboard. She has long brown hair and is looking towards the camera with a slight smile. The background is a solid light blue color.

Día Mundial de la Salud  
(7 de abril)

Aniversario de la Fundación de la Ciudad de México
